Della Bercovitch responded to my call for help with a small research project one year ago. I had trepidations about using a virtual assistant... someone one has never met before...too many unknowns...etc. However, what a surprise it was. The first assignment was accomplished within hours, (I struggled for days and without a tangible result). And...there is more; this was the beginning of an ongoing, beautiful, rich and effective relationship. Della is an ultimate professional. She delivers on time and budget, her timesheets are meticulous. She anticipates, she is proactive, positive, helpful, courteous, sensitive...simply an immense pleasure to work with.To find someone with so much integrity and spirit in today's world is a true rare find; I not only became Della's client, I also became her fan and ambassador.

I have worked with Della over 15 years and have observed her in working in a diverse range of projects, in project teams and in situations where she carried individual responsibility. Della has a keen sense of detail, excels at organization, and is committed to delivering results. I always her appreciated her ability to balance focus on the task at hand while maintaining her equanimity with her colleagues, superiors and subordinates. This quality was most important when Della had to vet suppliers in order to achieve optimal results; she was also able to build strong working relations with a network of vendors that gave our company a range of options over time. Above all, it is a pleasure to work with her.

Della created a database to capture four hundred records for a class action settlement negotiated by the Automobile Protection Association. I was very pleased with the results, and found Della to be super precise, efficient and utterly reliable. The data Della prepared was forwarded to a trust administrator appointed to handle the disbursement of refunds to consumers who complimented the APA for the work. I recommend Della-gate highly!

Dear Della, We had already worked together in the past on various projects most recently in 2007. You handled a very large dossier for me overseeing the creation of a database, formatting documents and following up in customer service. When I contacted your new company DELLA-GATE I did so with the utmost confidence in your abilities! Once again you quickly understood what I needed and took over, finishing the project well within the tight deadline I gave you .Your finished product was perfect and your sense of organization was evident. I was most pleased with the patience you demonstrated in explaining various details to me.You can be sure that I will call DELLA-GATE in the near future to allow you to do what you do best while I work on cultivating my business. Thank you for a job well done.

I have worked with Della at Della-gate on several projects for my private psychotherapy practice in Toronto, and plan to continue to do so. The advantage of virtual assistance is wonderful. I am a one-person business and my discovery of della-gate has helped me tremendously. I find Della to be totally approachable and no job is too small. She is very pleasant and gives her utmost attention to detail with great patience. Recently, Della helped me develop a flyer ,for a group that I was facilitating, to circulate to clients and colleagues. The end product had a very professional and eye-catching quality. I could never have done it on my own to such a high standard. That flyer has gotten a lot of interest and it has helped to populate my group. Thank you, Della. It is nice to know that you are out there in my court.
